SUMMARY

Final-year B.Tech Information Technology student with strong fundamentals in Java, SQL, and web technologies. Hands-on experience building backend-driven academic projects using structured relational databases. Comfortable working in collaborative team environments and focused on writing clean, maintainable, and scalable code.

SKILLS

Backend	Java, C++, REST APIs
Frontend	HTML, CSS, JavaScript, Bootstrap
Databases	Oracle SQL, MySQL

EDUCATION

B.Tech Information Technology, RTMNU, Nagpur	CGPA 6.3/10 — Expected 2026
XII(HSC), Adarsh Sanskar Vidyalaya, Nagpur	82% — 2022
X(SSC), Macaroon Students Academy, Wani	72% — 2020

PROJECTS

Inventory Management System

- Developed backend modules using Java and SQL for inventory tracking
- Designed structured database schema to reduce data redundancy
- Collaborated with team members to integrate features efficiently

Bank Management System

- Built a database-driven system to manage customers, accounts, and transactions
- Created ER diagrams to design optimized relational database schemas
- Implemented transaction handling logic using SQL constraints and normalization principles

CERTIFICATIONS

- Deloitte Data Analyst Job Simulation – Forage
- Deloitte Technology Job Simulation – Forage

POSITION OF RESPONSIBILITY

- Department Mentor – NSS (2023–2026)
- Sports Department Head (2022–2024)
